

# **PETROLEUM GEOLOGY OF THE AMU DAR'YA BASIN AND ADJACENT REGIONS OF TURKMENISTAN & UZBEKISTAN**

## **CONTENTS**

### **EXECUTIVE SUMMARY**

### **PART I:**

### **GEOLOGY OF THE AMU DAR'YA BASIN AND ADJACENT AREAS**

#### **Chapter 1. Overview of the Amu Dar'ya Basin and Adjacent Areas**

- I.1.1 Description of the report
- I.1.2 Brief description of the Amu Dar'ya Basin; its geography and climate
- I.1.3 Introduction to the previous exploration history and petroleum geology of the Amu Dar'ya Basin and adjacent areas

#### **Chapter 2. The Geological Development of the Amu Dar'ya Basin and Adjacent Areas**

- I.2.1 Structural and Tectonic Development of the Karakum Block and Adjacent Areas
- I.2.2 Structure of the Sedimentary Cover and Basement-Cover Relationships
- I.2.3 Stratigraphic Framework and Review of Regional Geological Development
  - I.2.3.1 Basement Stratigraphy
  - I.2.3.2 Permo-Triassic Rifting
  - I.2.3.3 Jurassic
    - Early and Middle Jurassic*
    - Kugitang Suite (Callovian-Oxfordian)*
    - Gaurdak Suite (Kimmeridgian-Tithonian)*
    - Sharapli Suite*
    - Karabil' Suite*
  - I.2.3.4 Cretaceous
    - Neocomian (including Shatlyk Suite)*
    - Aptian and Albian*
    - Late Cretaceous*
  - I.2.3.5 Cenozoic

**PART II:  
PETROLEUM GEOLOGY OF THE AMU DAR'YA BASIN AND ADJACENT  
AREAS**

**Chapter 1 Overview of the Petroleum Geology of the Amu Dar'ya Basin**

- II.1.1 Reservoirs and Seals
  - Triassic*
  - Lower and Middle Jurassic*
  - Kugitang Suite*
  - Gaurdak Suite*
  - Neocomian (including Shatlyk Suite)*
  - Aptian*
  - Albian to Cenomanian*
  - Late Cretaceous*
  - Palaeogene*
- II.1.2 Source Rocks
  - Early and Middle Jurassic source rocks*
  - Oxfordian source rocks*
  - Postulated Early Cretaceous source rocks*
- II.1.3 Hydrocarbon Generation
  - Origin of hydrogen sulphide*
- II.1.4 Hydrocarbon Migration
- II.1.5 Trapping Styles
- II.1.6 Hydrocarbon Types

**Chapter 2 Petroleum Geology of the Chardzhou & Bukhara Steps**

- II.2.1 Stratigraphy
- II.2.2 Reservoirs & Traps
- II.2.3 Source Rocks & Hydrocarbon Types
- II.2.4 Play Types

**Chapter 3 Petroleum Geology of the Beurdeshik-Khiva Area of the Amu Dar'ya Basin**

- II.3.1 Stratigraphy
- II.3.2 Reservoirs & Traps
- II.3.3 Source Rocks & Hydrocarbon Types

II.3.4 Play Types

**Chapter 4 Petroleum Geology of the Zaunguz to Karabekaul Areas of the Amu Dar'ya Basin**

II.4.1 Stratigraphy

II.4.2 Reservoirs & Traps

II.4.3 Source Rocks & Hydrocarbon Types

II.4.4 Play Types

**Chapter 5 Petroleum Geology of the Murgab Basin and Badkhyz-Karabil' Step**

II.5.1 Stratigraphy

II.5.2 Reservoirs & Traps

II.5.3 Source Rocks & Hydrocarbon Types

II.5.4 Play Types

**Chapter 6 Petroleum Geology of the Central Karakum Arch, Bakhardok Homocline and Pre-Kopetdag Trough**

II.6.1 Stratigraphy

II.6.2 Reservoirs & Traps

II.6.3 Source Rocks & Hydrocarbon Types

II.6.4 Play Types

**BIBLIOGRAPHY**

**ENCLOSURES**

**VOLUME 2: FIELD DATABASE OF THE AMU DAR'YA BASIN**

**(Extract from Blackbourn Geoconsulting's FSU Oil and Gas Field Database)**

## LIST OF FIGURES

- Figure I.1.1** General topographic and location map of the Amu Dar'ya Basin and surrounding areas
- Figure I.2.1** Cartoon illustrating the plate-tectonic position of the Karakum block during the mid-Devonian
- Figure I.2.2** Cartoon illustrating the plate-tectonic position of the Karakum block during the Early Carboniferous
- Figure I.2.3** Cartoon illustrating the plate-tectonic position of the Karakum block during the Late Triassic, with the position of the Amu Dar'ya Basin superimposed
- Figure II.1.1** Correlation chart of productive horizons within different areas of the Amu Dar'ya Basin
- Figure II.1.2** Burial and temperature curves for different parts of the Amu Dar'ya Basin
- Figure II.1.3** Representative cross sections through the Kokdumalak field reef, and overlying Gaurdak Suite evaporites
- Figure II.1.4** Variation of condensate yields and gas wetness on the northeastern side of the Amu Dar'ya Basin
- Figure II.1.5** Structural development of traps on the Bukhara Step
- Figure II.2.1** Composite stratigraphic section of the Aizavat area on the western margin of the Beshkent Trough, southeastern Chardzhou Step

Additional figures illustrating individual oil and gas fields are included within Volume 2 (Field Database).

## LIST OF ENCLOSURES

- ENCLOSURE 1:** GENERALISED TECTONIC SETTING OF THE AMU DAR'YA BASIN AND SURROUNDING AREAS
- ENCLOSURE 2:** AMU DAR'YA BASIN AND SURROUNDING AREAS: GENERALISED LOCATION MAP SHOWING MAJOR STRUCTURAL ELEMENTS, HYDROCARBON PROVINCES, HYDROCARBON FIELDS AND WELL LOCATIONS
- ENCLOSURE 3:** REPRESENTATIVE REGIONAL CROSS SECTIONS THROUGH THE AMU DAR'YA BASIN
- ENCLOSURE 4:** REGIONAL CORRELATION PANEL OF THE AMU DAR'YA BASIN, ILLUSTRATING STRATIGRAPHY AND MAIN RESERVOIR HORIZONS
- ENCLOSURE 5:** KUGITANG SUITE (CALLOVIAN-OXFORDIAN) FACIES ASSOCIATIONS AND THICKNESSES IN THE AMU DAR'YA BASIN
- ENCLOSURE 6:** GAURDAK SUITE (KIMMERIDGIAN-TITHONIAN) FACIES ASSOCIATIONS AND THICKNESSES, WITH ILLUSTRATIVE SECTIONS, IN THE AMU DAR'YA BASIN
- ENCLOSURE 7:** SHATLYK SUITE (INCLUDING KERKINSK SUITE) (HAUTERIVIAN) FACIES ASSOCIATIONS AND THICKNESSES IN THE AMU DAR'YA BASIN
- ENCLOSURE 8:** DEPTH STRUCTURE MAP TO TOP-HAUTERIVIAN (NEAR-TOP SHATLYK SUITE) IN THE AMU DAR'YA BASIN
- ENCLOSURE 9:** APTIAN RESERVOIR INTERVAL FACIES ASSOCIATIONS AND THICKNESSES IN THE AMU DAR'YA BASIN
- ENCLOSURE 10:** DEPTH STRUCTURE MAP TO TOP-CRETACEOUS IN THE AMU DAR'YA BASIN

**ENCLOSURE 11: SOURCE ROCK DISTRIBUTION AND REGIONAL  
HYDROCARBON MIGRATION TRENDS IN THE AMU  
DAR'YA BASIN**
