

**PETROLEUM GEOLOGY OF CENTRAL AND EASTERN
KAZAKHSTAN AND OTHER BASINS OF SOUTHEAST CENTRAL
ASIA**

CONTENTS

EXECUTIVE SUMMARY

**PART I: GEOLOGY OF CENTRAL AND EASTERN KAZAKHSTAN AND
ADJACENT AREAS OF SOUTHEAST CENTRAL ASIA**

Chapter 1. Overview of the Basins of Southeast Central Asia.

- I.1.1 Description of the report
- I.1.2 Brief description of the Geography of Southeast Central Asia
 - I.1.2.1 Turan Platform
 - I.1.2.2 Kazakhstan Plateau
 - I.1.2.3 Tien Shan Range
- I.1.3 Introduction to the Previous Exploration History and Petroleum Geology of the Basins of Southeast Central Asia

Chapter 2. Tectonic Evolution of Central Asia since the Palaeozoic

- I.2.1 Palaeozoic Consolidation of Central Asia
 - I.2.1.1 Nature and Development of the Kazakhstan Continent
 - I.2.1.2 Closure of the Junggar-Balkhash Ocean
 - I.2.1.3 Closure of the Uralian Ocean
 - I.2.1.4 Closure of the Ob-Zaisan Ocean
 - I.2.1.5 Closure of the Turkestan Ocean
- I.2.2 Late Palaeozoic to Recent Basin Formation over the Kazakhstan Plateau (including Chu-Sarysu).
 - I.2.2.1 Palaeozoic Basin Formation on the West Kazakhstan Plateau
 - I.2.2.2 Palaeozoic Basin Formation on the East Kazakhstan Plateau
 - I.2.2.3 Mesozoic and Cenozoic of the Kazakhstan Plateau
 - I.2.2.4 The Development of the Zaisan Basin

Contents.2

- I.2.3 Structural and Tectonic Development of the Southern Margin of Central Asia:
Tien Shan and the Pamirs
 - I.2.3.1 Palaeozoic Stage
 - I.2.3.2 Mesozoic to Cenozoic stage

Chapter 3. Development of the Central Asian Basins: Palaeogeography and Stratigraphy

- I.3.1 Basins of the Northeast Turan Platform
 - I.3.1.1 Stratigraphic Development of the Northeast Turan Platform
 - I.3.1.2 The South Turgai Basin
 - I.3.1.3 East Aral and Syr Dar'ya Basins
- I.3.2 Basins of the Kazakhstan Plateau (including Chu-Sarysu)
 - I.3.2.1 The Teniz and Chu Sarysu Basins
 - Teniz Basin and Dzhezkazgan Sub-Basin*
 - "Pre-Chu Basin"*
 - I.3.2.2 The Balkhash and Alakol basins
 - I.3.2.3 The Zaisan Basin
- I.3.3 The Basins of Tien-Shan
 - I.3.3.1 The Afghan-Tajik (South Tajik) Basin
 - Structural Development of the Afghan-Tajik Basin*
 - Stratigraphic Framework of the Afghan-Tajik Basin*
 - I.3.3.2 The Fergana Basin
 - Structural Development of the Fergana Basin*
 - Stratigraphic Framework of the Fergana Basin*
 - I.3.3.3 The Other Basins of Tien Shan: the Alai, Central Tien Shan and Ili Basin Groups
 - Structural Development of the Other Basins of Tien Shan*
 - Stratigraphic Framework of the Other Basins of Tien Shan*
 - Alai Basin*

**PART II: PETROLEUM GEOLOGY AND HYDROCARBON PROSPECTIVITY
OF CENTRAL AND EASTERN KAZAKHSTAN AND OTHER
BASINS OF SOUTHEAST CENTRAL ASIA**

Chapter 1: Basins of the Northeast Turan Platform

- II.1.1 The South Turgai Basin
- II.1.2 The East Aral and Syr Dar'ya Basins

Chapter 2: Petroleum Geology of the Basins of the Kazakhstan Plateau

- II.2.1 The Chu-Sarysu Basin
- II.2.2 The Zaisan Basin

Chapter 3: Petroleum Geology of the Basins of Tien Shan

- II.3.1 The Afghan-Tajik Basin
 - II.3.1.1 Reservoirs and Seals
 - II.3.1.2 Source Rocks
 - II.3.1.3 Hydrocarbon Generation and Migration
 - II.3.1.4 Trapping Styles
 - II.3.1.5 Hydrocarbon Types
 - II.3.1.6 Play Types
- II.3.2 The Fergana Basin
 - II.3.2.1 Reservoirs and Seals
 - II.3.2.2 Source Rocks
 - II.3.2.3 Hydrocarbon Generation and Migration
 - II.3.2.4 Trapping Styles and Plays
- II.3.3 The Other Basins of Tien Shan: the Alai, Central Tien Shan and Ili Basin Groups

BIBLIOGRAPHY

ENCLOSURES

**VOLUME II: FIELD DATABASE OF CENTRAL AND EASTERN KAZAKHSTAN
AND OTHER BASINS OF SOUTHEAST CENTRAL ASIA**

(Extract from Blackbourn Geoconsulting's FSU Oil & Gas Field Database)

LIST OF FIGURES

- Figure I.2.1** Schematic diagram illustrating the evolution of the Northeast Turan Platform and the West Kazakhstan Plateau from the Late Devonian to the Late Carboniferous.
- Figure I.2.2** Cartoon showing the main phases of evolution of the Talas-Fergana Fault, and its association with the Fergana and Afghan-Tajik Basins.
- Figure I.2.3** The Zaisan Basin; outline map of the geology and structure.
- Figure I.3.1** Generalised structure map of the South Turgai Basin showing the distribution of known hydrocarbon fields.
- Figure I.3.2** Schematic cross section across the South Turgai Basin.
- Figure I.3.3** Schematic cross section of the Mesozoic-Cenozoic sediments of the Syr-Dar'ya and Chu-Sarysu Basin.
- Figure I.3.4** Correlation of well sections in the East Aral Basin.
- Figure I.3.5** Schematic geological map (a) and section (b) across the Alakol Basin.
- Figure I.3.6** Afghan-Tajik Basin: location map showing major topographic features.
- Figure I.3.7** Geological cross-sections through the Afghan-Tajik Basin.
- Figure I.3.8** Simplified cross-section illustrating the geological structure across the western margin of the Afghan-Tajik Basin and eastern part of the Southwest Gissars.
- Figure I.3.9** Main topographic features and location map of the Fergana Basin and surrounding areas.
- Figure I.3.10** Schematic cross-sections through the Fergana Basin.
- Figure I.3.11** Comparison of (a) earlier extensional and (b) modern compressional models for the structure of the Fergana Basin.

Figure I.3.12 Main topographic features of the Central and Southern Tien Shan and adjacent regions.

Figure I.3.13 Schematic Mesozoic and Cenozoic stratigraphy of the basins of Tien Shan, showing the different names used for formations of similar ages and their possible correlation.

Figure II.1 Burial curve for the Kokpansor Trough.

Figure II.2 Increase in formation temperature with depth in different areas of the Fergana Basin.

Figure II.3 Conceptual cross-section showing potential trap types in the Fergana Basin.

Additional figures illustrating individual oil and gas fields are included within Volume II (Field Database).

LIST OF TABLES

Table 1: BASINS OF THE NORTHEAST TURAN PLATFORM: BASIN SUMMARIES, WITH KNOWN AND POTENTIAL PETROLEUM SYSTEM ELEMENTS

Table 2: BASINS OF THE KAZAKHSTAN PLATEAU: BASIN SUMMARIES, WITH KNOWN AND POTENTIAL PETROLEUM SYSTEM ELEMENTS

Table 3: BASINS OF THE TIEN SHAN: BASIN SUMMARIES, WITH KNOWN AND POTENTIAL PETROLEUM SYSTEM ELEMENTS

LIST OF ENCLOSURES

- ENCLOSURE 1:** GENERAL LOCATION MAP AND MAJOR TOPOGRAPHIC FEATURES OF SOUTHEAST CENTRAL ASIA
- ENCLOSURE 2:** LOCATION MAP OF THE KNOWN AND PROSPECTIVE HYDROCARBON BASINS OF SOUTHEAST CENTRAL ASIA
- ENCLOSURE 3:** SIMPLIFIED CARTOON ILLUSTRATING THE FORMATION OF THE BASEMENT OF KAZAKHSTAN, TIEN SHAN, THE PAMIRS AND SURROUNDING AREAS OF CENTRAL ASIA (PART CONJECTURAL)
- ENCLOSURE 4:** BASEMENT STRUCTURE OF THE CENTRAL ASIAN BASINS AND SURROUNDING AREAS
- ENCLOSURE 5:** GENERALISED MID-DEVONIAN TO MID-CARBONIFEROUS PALAEOGEOGRAPHY OF THE WESTERN KAZAKHSTAN CONTINENT (NOT PALINSPASTICALLY RESTORED) WITH YOUNGER BASINAL AREAS SUPERIMPOSED
- ENCLOSURE 6:** INTERPRETATIVE CROSS-SECTIONS ILLUSTRATING THE STRUCTURE OF THE BASINS OF THE WEST KAZAKHSTAN PLATEAU
- ENCLOSURE 7:** COMPARATIVE SECTIONS ILLUSTRATING THE FACIES VARIATIONS WITHIN THE LATE DEVONIAN-MIDDLE CARBONIFEROUS CARBONATE PLATFORM AND ASSOCIATED DEPOSITS ON THE WESTERN MARGIN OF THE KYRGYZ-KAZAKH CONTINENT
- ENCLOSURE 8:** LATE CARBONIFEROUS TO EARLY PERMIAN TECTONIC ELEMENTS WITHIN THE TENIZ AND CHU-SARYSU BASINS OF THE WEST KAZAKHSTAN PLATEAU
- ENCLOSURE 9:** COMPOSITE STRATIGRAPHIC SECTION OF THE SOUTH TURGAI BASIN

- ENCLOSURE 10:** MESOZOIC BASINS OF THE NORTHEAST TURAN PLATFORM
- ENCLOSURE 11:** STRUCTURAL MAP OF THE AFGHAN-TAJIK BASIN
- ENCLOSURE 12:** COMPOSITE STRATIGRAPHIC SECTION OF THE AFGHAN-TAJIK BASIN
- ENCLOSURE 13:** STRUCTURE MAP OF THE BASEMENT OF THE AFGHAN-TAJIK BASIN
- ENCLOSURE 14:** STRUCTURE MAP SHOWING DEPTH TO THE TOP OF THE UPPER JURASSIC CARBONATES IN THE TAJIKISTAN AND UZBEKISTAN SECTORS OF THE AFGHAN-TAJIK BASIN
- ENCLOSURE 15:** FERGANA BASIN: MAJOR STRUCTURAL FEATURES, HYDROCARBON FIELDS AND LICENCE BLOCKS
- ENCLOSURE 16:** FERGANA BASIN: STRUCTURE CONTOUR MAP SHOWING DEPTH TO BASE MESOZOIC
- ENCLOSURE 17:** FERGANA BASIN: THICKNESS OF THE PALAEOGENE MARINE SEDIMENTS AND DISTRIBUTION OF NEAR-SURFACE BITUMEN DEPOSITS
- ENCLOSURE 18:** FERGANA BASIN: THICKNESS IN METRES OF THE PERMO-TRIASSIC TO JURASSIC SEDIMENTS ON THE SOUTHERN MARGIN OF THE BASIN AND DISTRIBUTION OF HYDROCARBON FIELDS
- ENCLOSURE 19:** FERGANA BASIN: GEOTHERMAL GRADIENT AND THICKNESS OF THE CRETACEOUS TO LOWER PALAEOGENE ON THE SOUTHERN MARGIN OF THE BASIN AND DISTRIBUTION OF HYDROCARBON FIELDS
- ENCLOSURE 20:** COMPOSITE STRATIGRAPHIC SECTION FOR THE FERGANA BASIN INDICATING RESERVOIR, SOURCE AND SEAL HORIZONS

ENCLOSURE 21: GENERALISED GEOLOGY MAP OF THE TIEN SHAN INTERMONTANE BASINS, SHOWING BASEMENT AFFINITIES AND MAJOR STRUCTURES AFFECTING THE PRESENT CENOZOIC BASINS

ENCLOSURE 22: SCHEMATIC CROSS-SECTIONS ACROSS THE TIEN SHAN SHOWING THE PRESENT-DAY STRUCTURE

ENCLOSURE 23: SCHEMATIC BASEMENT STRATIGRAPHY FOR THE CENTRAL TIEN SHAN GROUP OF BASINS, SHOWING REPRESENTATIVE COMPOSITE BASEMENT FORMATIONS FOR THE DIFFERENT ZONES OF THE TIEN SHAN. HORIZONTAL PLACEMENT OF SECTIONS CORRESPONDS TO THE MESOZOIC STRATIGRAPHY OF THE BASINS SHOWN IN FIGURE I.3.13
