

REVIEW OF THE PETROLEUM GEOLOGY OF THE **"OLDER" BASINS OF AZERBAIJAN**

CONTENTS

EXECUTIVE SUMMARY

1. Introduction
2. Brief Outline of the Tectonic Evolution of Azerbaijan
3. Major Hydrocarbon-Bearing Successions of Azerbaijan
4. Petroleum Geology and Prospectivity of "Older" Hydrocarbon Provinces
 - 4.1 Kusary Divichi Trough
 - 4.1.1 Stratigraphy
 - 4.1.2 Hydrocarbon occurrences
 - 4.1.3 Hydrocarbon prospectivity
 - 4.2 East Georgia-West Azerbaijan Thrust Zone
 - 4.2.1 Alazani-Agrichai region
 - 4.2.2 Adzhinour region
 - 4.3 Shemakha-Kobystan Trough
 - 4.3.1 Jurassic
 - 4.3.2 Cretaceous
 - 4.3.3 Tertiary
 - 4.3.4 Hydrocarbon prospectivity
 - 4.4 Middle Kura Trough
 - 4.4.1 Evlakh-Agdzhabedi Trough (including Dzharly-Saatly region)
 - 4.4.2 Gyandzha (formerly Kirovabad) region
 - 4.4.3. Mil-Mugan region
 - 4.4.4. Kura-Iori (Kura-Gabyrry) interfluvial region
 - 4.5 Dzhaililabad Region
 - 4.6 Araks and Nakhichevan Troughs

BIBLIOGRAPHY

ENCLOSURES

APPENDIX 1: FIELD DATABASE. OF THE OLDER BASINS OF AZERBAIJAN (Extract from Blackbourn Geoconsulting's FSU Oil and Gas Field Database)

LIST OF FIGURES

- Figure 1** Locations of the main hydrocarbon-bearing regions of Azerbaijan as defined by Azeri geologists, compared with the provinces on Enclosure 1.
- Figure 2** Schematic diagram showing one model for the evolution of the Caucasus margin of Tethys during the Jurassic.
- Figure 3** Structure map and representative cross sections of the Kusary-Divichi Trough
- Figure 4** Generalised stratigraphic sections of the northwestern and southeastern areas of the Kusary-Divichi Trough
- Figure 5** Structure map and cross sections of the Shemakha-Kobystan Trough
- Figure 6** Structure map and cross sections of the Middle Kura Trough
- Figure 7** Generalised stratigraphic section of the Evlakh-Agdzhabedi Trough
- Figure 8** Simplified Eocene palaeogeography for the Middle Kura Trough (not palinspastically restored)
- Figure 9** Simplified Oligocene (Maikopian) palaeogeography for the Middle Kura Trough (not palinspastically restored)
- Figure 10** Burial curves for wells in the Evlakh-Agdzhabedi Trough
- Figure 11** Generalised stratigraphy of the upper part of the section in the Kura-Iori Trough

Numerous additional figures illustrating oil and gas fields are included within the Field Database

LIST OF ENCLOSURES

ENCLOSURE 1: AZERBAIJAN: GEOLOGY AND HYDROCARBON FIELDS

ENCLOSURE 2: SCHEMATIC DIAGRAM SHOWING MAJOR TECTONIC FEATURES, HYDROCARBON FIELDS AND PROSPECTIVE STRUCTURES OF AZERBAIJAN

ENCLOSURE 3: STRUCTURAL CROSS SECTIONS OF THE EASTERN CAUCASUS AND TRANSCAUCASUS ILLUSTRATING THE PALAEOGENE TO RECENT DEVELOPMENT OF THE AREA

ENCLOSURE 4: GENERALISED STRATIGRAPHY OF THE LESSER CAUCASUS

ENCLOSURE 5: GENERALISED STRATIGRAPHY OF THE SHEMAKHA-KOBYSTAN PROVINCE

ENCLOSURE IN

FIELD DATABASE: OIL AND GAS PROVINCES, FIELDS AND STRUCTURES IN AND AROUND THE SOUTH CASPIAN BASIN
