

HYDROCARBON GEOLOGY OF THE NORTH CAUCASUS AREA

EXECUTIVE SUMMARY

CHAPTER 1: INTRODUCTION

1.1 Description of the Report

1.2 Description of the Area and its Infrastructure

1.2.1 Rostov Oblast

1.2.2 Krasnodar Krai

1.2.3 Kabardino-Balkaria

1.2.4 North Osetia

1.2.5 Checheniya Autonomous Republic

1.2.6 Dagestan

1.2.7 Kalmykiya

1.2.8 Navigation on the seas surrounding the North Caucasus

1.3 History of hydrocarbon development in the North Caucasus

1.4 Organisation of the North Caucasus Hydrocarbon Industry

1.5 Stratigraphic nomenclature in the North Caucasus

1.6 Classification of hydrocarbon reserves

1.7 Russian units of measurement

CHAPTER 2: TECTONIC EVOLUTION AND STRUCTURE OF THE NORTH CAUCASUS

2.1 Tectonic Evolution

2.1.1 Pre-Hercynian Tectonic Controls

2.1.2 Hercynian Tectonic Controls

2.1.3 Alpine Tectonic Evolution

2.2 Main Structural Elements of the North Caucasus

2.2.1 East European Platform

2.2.2 Transitional Platform

2.2.3 Scythian Platform

2.2.4 Great Caucasus Range

CHAPTER 3: STRATIGRAPHY AND DEPOSITIONAL ENVIRONMENTS OF THE NORTH CAUCASUS

3.1 The "Pre-Hercynian" Basement Rocks of the North Caucasus 3.1

3.2 The "Hercynian Cycle" (to end Carboniferous)

3.2.1 Area South of the Manych Fault

3.2.2 Area North of the Manych Fault

3.3 The Permo-Triassic ("Intermediate") Complex

3.3.1 Permian

3.3.2 Early Triassic

3.3.3 Middle Triassic

3.3.4 Late Triassic

3.3.5 Triassic Depositional Environments

3.4 Jurassic

3.4.1 Early and Middle Jurassic

3.4.2 Late Jurassic (and Callovian)

3.5 Cretaceous

3.5.1 Early Cretaceous

3.5.2 Late Cretaceous

3.6 Tertiary

3.6.1 Palaeocene

- 3.6.2 Oligocene to Lower Miocene (Maikopian)
- 3.6.3 Middle to Early Miocene (Chokrakian to Karanginian)
- 3.6.4 Middle Miocene (Sarmatian)
- 3.6.5 Late Miocene to Early Pliocene (Meotic and Pontian)
- 3.6.6 Lower Pliocene (Balakhanian)
- 3.6.7 Upper Pliocene (Akchagylian)
- 3.6.7 Upper Pliocene (Apsheonian)

3.7 Quaternary

CHAPTER 4; HYDROCARBON RESOURCES OF THE NORTH CAUCASUS

4.1 Rostov Province (Enclosure 2)

- 4.1.1 Voronezh Anticline
- 4.1.2 Rostov Arch
- 4.1.3 Sal'sk Transverse Uplift
- 4.1.4 Reserves and Production

4.2 The Azov-Kuban Province (Enclosure 3)

- 4.2.1 Triassic
- 4.2.2 Lower and Middle Jurassic
- 4.2.3 Lower Cretaceous
- 4.2.4 Palaeocene-Eocene
- 4.2.5 Maikopian Series
- 4.2.6 Neogene

4.3 The Stavropol Province (Enclosure 4)

4.4 The Eastern Precaucasus Province (Enclosure 4)

- 4.4.1 Southwest Precaspian
- 4.4.2 Karpinsky Arch
- 4.4.3 The Prekuma Area

4.4.4 Terek-Caspian Trough

4.4.5 The Dagestan Foothills

4.5 Hydrocarbon Composition

CHAPTER 5: HYDROCARBON PROSPECTIVITY

5.1 Introduction

5.2 Carboniferous

5.2.1 Hydrocarbon Plays

5.2.2 Joint Venture Opportunities

5.3 Mesozoic and Tertiary

5.3.1 Source Rocks

5.3.2 Permo-Triassic Hydrocarbon Plays

5.3.3 Jurassic and Cretaceous Hydrocarbon Plays

5.3.4 Joint Venture Opportunities

5.3.5 Tertiary Hydrocarbon Plays

5.3.6 Joint Venture Opportunities
